

## Per- and polyfluoroalkyl substances (PFAS)

This certifies that all materials and products shipped by Vargus Ltd. are free from Per- and polyfluoroalkyl substances (PFAS), in compliance with EPA and ECHA regulations.

Our current product range consists of:

1. Steel products (tool holders and steel body tooling) with Black Oxide or Zinc Phosphate and Oil finishes
2. Cemented carbide indexable inserts (VARDEX threading and GROOVEX grooving/turning) with TiN, TiCN, TiAlN, or AlTiN PVD coatings
3. Solid carbide tools (V-Mill end mills, V-Drill drilling tools, and solid carbide thread mills) with PVD coatings (TiAlN, AlTiN, nano-composite coatings)
4. SHAVIV hand-deburring tools composed of steel bodies and Polyvinyl chloride (PVC) components, uncoated

We confirm that these base materials, surface treatments, and PVD coatings do not contain any PFAS substances.
